

COLEGIO AMERICANO
DE PUERTO VALLARTA, A.C.

November 3rd, 2008.

To Whom It May Concern:

It is a pleasure to write this letter of recommendation for Mr. Paul Brocklehurst. Paul joined our staff in September of 2007, as a high school mathematics instructor. He has proven to be a fine teacher; knowledgeable of subject matter, adept at classroom management and willing to volunteer his time to contribute to our educational community. He has been responsible for initiating an after school math peer tutoring program and in collaboration with two of his colleagues, developed a standards based academic intervention program. I have no doubt he will be a positive addition to any staff he joins.

Please feel free to contact me if you require more information.

Respectfully,

MR. GERALD SELITZER
General Director
